SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Madam/Sir:

To comply with 37 CFR §1.97 and §1.98, Applicants submit the enclosed Form PTO-1449.

In accordance with MPEP §609 and §707.05(b), Applicants respectfully request that the cited document be given thorough consideration, and that the Examiner cite it in the prosecution history of the present application by initialing the Form PTO-1449 next to the citation.

Applicants request such initialing even if the Examiner does not consider: (1) the document to be sufficiently pertinent to use in a rejection; (2) the document to be prior art for any reason; or (3) that the guidelines for citation have been fully complied with. Applicants make this request so that the document becomes cited on the face of a patent issuing on the present application.

Applicants submit this supplemental information disclosure statement in compliance with the duty to disclose information material to patentability under 37 CFR §1.56, but by listing the document are not admitting that it is necessarily relevant or prior art. Applicants intend no representation that the listed document represents the results of a complete search. Applicants anticipate that the Examiner, in the normal course of examination, will make an independent search consistent with 37 CFR §1.104, and, in the course of such search, will review for relevance the document listed on the attached form even if not initialed.

Supplemental Information Disclosure Statement
Appl. No. 10/747,796
January 31, 2005

The reference cited in this information disclosure statement is a published U.S. patent application. A copy of it therefore is not being provided in accordance with 37 C.F.R. §1.98(d) and MPEP §609 Part III(A)(2). The pending claim set from this application, however, is being enclosed because the claims have been amended and therefore differ from the claims in the published application. Applicants are happy to provide a copy of the cited application upon request from the Examiner.

Applicants request early and favorable consideration of this patent application.
